CONCORD ON TAP is a program to increase access to Concord's tap water and to help our local businesses adapt and thrive. View the map for tap water locations and look for the Concord on Tap decal.

WE SUPPORT TAP WATER BECAUSE. . .

- Free and available 24/7
- Better regulated than bottled water
- Doesn't cause waste and incur recycling costs

BOTTLED WATER CONCERNS. . .

- Increases our dependence on foreign oil
- Produces carbon pollution that contributes to climate change
- Enables for-profit companies to control public water resources

OUR SHARED COMMITMENT TO SUSTAINABILITY

A sustainable community uses resources wisely and sparingly in order to preserve them for future generations. When you choose Concord tap water and patronize our local businesses you are helping to build a more sustainable community, a healthier planet and a better future for our children.

CONCORD • MASSACHUSETTS

Tap Water Map

OUR COMMUNITY'S CHOICE

In April 2012 at our annual Town Meeting, Concord citizens voted to move away from single-serve bottled water and back to Concord's excellent and readily-available tap water. With this historic decision, Concord joins a growing movement on college campuses, in America's national parks, and in hundreds of cities and towns across the country.

Refill, Refresh, Renew
